

REPLIT PROMPT — YachtWorth App: Full Navigation & Architecture Restructure

TASK

Restructure the existing YachtWorth mobile app navigation and home screen. Do NOT rebuild the app from scratch. Keep all existing screens and functionality. Only restructure navigation, home screen, and add placeholder screens for future modules.

CURRENT STATE (what exists and must be kept)

- Home screen with "New valuation" button, Free plan, 1 remaining
 - 5-step AI valuation flow (working)
 - Charter ROI calculator (working)
 - Annual cost estimator 4-step flow (working)
 - History screen
 - Profile / Subscription screen
 - Design system: dark navy #0D1B2A , gold #C5973A , card #1A2B3C , existing fonts
-

NEW ARCHITECTURE

Bottom Navigation Bar — 5 tabs:

[Home] [Tools] [My Yacht] [PDYE] [Profile]

Icons (use lucide-react-native or similar):

- Home → `home` icon
- Tools → `wrench` or `tool` icon

- My Yacht → anchor icon
- PDYE → shield or lock icon (special gold color)
- Profile → user icon

SCREEN SPECIFICATIONS

TAB 1: HOME

Replace current hero with role-based entry screen.

Header:

YACHTWORTH
[bell icon]

Hero text:

Your yacht.
Fully understood.

Subtitle: "AI-powered tools for owners, brokers and surveyors."

Role selector — 4 cards in 2×2 grid:

Card 1 — OWNER

- Icon: anchor
- Label: "Owner"
- Subtitle: "Valuation · Costs · Passport"
- Tap → scrolls to Owner tools section OR navigates to Tools tab filtered to Owner

Card 2 — BROKER

- Icon: briefcase
- Label: "Broker"
- Subtitle: "Valuation · Listings · Co-brokerage"

- Tap → Tools tab filtered to Broker

Card 3 — CHARTER

- Icon: calendar (or waves)
- Label: "Charter"
- Subtitle: "ROI · Planning · Reports"
- Tap → Tools tab filtered to Charter

Card 4 — SURVEYOR

- Icon: clipboard-check
- Label: "Surveyor"
- Subtitle: "Inspection · Reports · Valuation"
- Tap → Tools tab filtered to Surveyor

Below role cards — Quick Actions row:

[New Valuation →] [My Yacht →]

Both are gold outlined buttons.

Below quick actions — "Featured tool" banner:

- Background: dark card with gold left border
- Text: "Know your yacht's worth · AI valuation in under 1 min"
- Button: "Start free →"
- Taps into existing valuation flow

TAB 2: TOOLS

Header: "Tools" with segmented filter:

[All] [Owner] [Broker] [Charter] [Surveyor]

Default: All. Selecting a role filters the tool cards below.

Tool cards — vertical list, each card has:

- Icon (gold)
- Title
- Subtitle
- Status badge: `LIVE` (green) or `COMING SOON` (grey)
- Arrow →

Complete tool list (in this order):

Icon	Title	Subtitle	Role	Status
trending-up	AI Valuation	Market price in under 1 min	All	LIVE
calculator	Annual Cost Estimator	Full ownership cost breakdown	Owner · Broker	LIVE
bar-chart	Charter ROI	Revenue & break-even analysis	Charter · Owner	LIVE
file-text	Listing Generator	AI-powered listing copy	Broker	COMING SOON
shield-check	Yacht Verification	IMO · AIS · Flag registry	All	COMING SOON
qr-code	Digital Passport	QR-linked verified yacht history	All	COMING SOON
clipboard-list	Survey Report Builder	Mobile inspection + auto PDF	Surveyor	COMING SOON
book-open	Maintenance Log	Service history & reminders	Owner	COMING SOON
users	Broker CRM	Clients · Alerts · Co-brokerage	Broker	COMING SOON
calendar	Charter Planner	Trip planning · Per-trip P&L	Charter	COMING SOON
flag	Flag Calculator	Compare registrations & VAT	Owner · Broker	COMING SOON
			Owner ·	COMING

map-pin	Marina Database	Rates · Depths · Services	Charter	SOON
---------	-----------------	---------------------------	---------	------

Tapping LIVE tool → navigates to existing screen. **Tapping COMING SOON tool** → shows modal:

```
[tool icon]
[Tool Name]
Coming soon to YachtWorth.
We're building this now.

[Notify me when ready] ← stores email/push preference
[Close]
```

TAB 3: MY YACHT

Header: "My Yacht"

If no yacht added yet — empty state:

```
[anchor icon large, gold]
No yacht added yet.
Add your yacht to unlock your
digital passport and history.

[+ Add my yacht] ← gold button
```

If yacht exists — show:

- Yacht card: name, type, length, year, flag
- Status badges: Valuation ✓, Cost estimate ✓, Passport (locked)
- Quick links: Edit · View passport · Share QR

Below yacht card — 3 action buttons:

```
[View Valuation]
[View Cost Estimate]
[Digital Passport → COMING SOON]
```

TAB 4: PDYE

Header: "PDYE Platform" Gold lock icon next to header.

Hero card — dark with gold border:

PRIVATE DEAL EXCHANGE

Off-market yacht transactions.
Broker-to-broker · NDA protected ·
Deal Room secured.

[Open PDYE Platform →]

This button opens the PDYE web platform (pdyegroup.com) in an in-app browser.

Below hero — 3 info cards:

Card 1:

- Icon: shield
- Title: "NDA Protected"
- Text: "Dual NDA before any information is shared"

Card 2:

- Icon: lock
- Title: "Deal Room"
- Text: "Secure environment · All activity logged"

Card 3:

- Icon: percent
- Title: "Success Fee Only"
- Text: "1% buyer + 1% seller · No subscription"

Bottom CTA:

Not a broker yet?
[Register on PDYE →]

Opens pdyegroup.com registration in in-app browser.

TAB 5: PROFILE

Keep existing Profile screen content. Add at top:

User info card:

- Avatar (initials circle, gold)
- Name / email
- Current plan badge: `FREE` or `PRO` or `SURVEYOR`

Sections:

1. Subscription → existing subscription screen
2. Notifications toggle
3. Privacy
4. Support
5. App version

Bottom:

`POWERED BY PDYE`

NAVIGATION RULES

1. History (previously bottom tab) → move INSIDE Profile tab as a section “My valuations history”
 2. The 5 bottom tabs replace the old 3-tab navigation entirely
 3. Back navigation within each tab uses standard stack navigation
 4. PDYE tab icon should have a subtle gold glow effect to draw attention
 5. Active tab indicator: gold underline or filled icon, not just color change
-

COMING SOON MODAL (reusable component)

```
// ComingSoonModal.jsx
```

```
// Props: toolName, toolIcon, visible, onClose, onNotify
// Shows centered modal with blur background
// Gold bordered card
// Tool icon + name + description
// Two buttons: "Notify me" (gold filled) + "Close" (outlined)
// Notify me: saves to AsyncStorage array of subscribed tools
```

TECHNICAL REQUIREMENTS

1. Keep ALL existing navigation logic for working tools — only wrap in new tab structure
 2. Use existing color tokens: #0D1B2A, #C5973A, #1A2B3C, #FFFFFF, #8899AA
 3. Role filter state on Tools tab: use `useState`, persist to AsyncStorage as user preference
 4. "My Yacht" data: read from existing AsyncStorage if present, otherwise empty state
 5. PDYE tab web links: use `Linking.openURL()` or `WebView` — prefer in-app `WebView`
 6. ComingSoonModal: single reusable component used across all COMING SOON tools
 7. Do NOT change any existing valuation, ROI, or cost estimator screens
 8. Bottom tab bar height: 60px, safe area aware
 9. All icons from lucide-react-native (already installed)
-

FILE STRUCTURE (changes only)

```
/navigation
  AppNavigator.js          ← REPLACE: new 5-tab bottom navigator

/screens
  HomeScreen.js            ← REPLACE: new role-based home
  ToolsScreen.js           ← NEW: filtered tool list
  MyYachtScreen.js         ← NEW: yacht profile + passport entry
  PDYEScreen.js            ← NEW: PDYE platform entry
  ProfileScreen.js         ← UPDATE: add user card + history link

/components
  ComingSoonModal.js       ← NEW: reusable coming soon modal
  RoleCard.js              ← NEW: role selector card
  ToolCard.js              ← NEW: tool list card with status badge
```

YachtCard.js	← NEW: yacht summary card
/screens/existing	← DO NOT TOUCH:
ValuationFlow/	← keep as-is
CostEstimator/	← keep as-is
CharterROI/	← keep as-is
History/	← keep as-is (link from Profile)

PRIORITY ORDER

1. New AppNavigator with 5 tabs — get navigation working first
2. New HomeScreen with role cards and quick actions
3. ToolsScreen with full tool list and filter
4. ComingSoonModal component
5. PDYEScreen
6. MyYachtScreen
7. ProfileScreen update

Do NOT start implementing individual COMING SOON tools — just the structure, navigation, and placeholders. Each tool will be built separately in future sessions.

YachtWorth by PDYE Group · Design system: dark navy/gold · Existing codebase on GitHub/Render/Supabase
