VALUATION FACTORS

Low engine hours (540 h) Well below average for model year; strong service record.	POSITIVE	9
EU VAT paid status Removes ~20% buyer liability vs VAT-unpaid stock.	POSITIVE	8
Premium berth — Monaco Desirable, transferable berthing improves marketability.	POSITIVE	5
Softening brokerage market H1 2026 Increased inventory of 26–28m motor yachts pressuring asking prices.	NEGATIVE	6
Standard electronics package No notable upgrades or detractors.	NEUTRAL	3

MARKET NOTES

The 26–28m Mediterranean motor-yacht segment remains liquid but has softened modestly through the first half of 2026 as new-build deliveries add to brokerage inventory. Sunseeker 88 Yacht hulls in this age band continue to attract strong buyer interest where service history is complete and VAT is paid, both of which apply to this vessel. We expect a realistic sale within 90–120 days at an asking price positioned near the upper-mid of the indicated range, with negotiation typically settling 4–7% below ask in current conditions.
