

REPLIT PROMPT — YachtWorth: My Yacht Equipment Section

CONTEXT

Add a new section "Equipment & Systems" to the existing Add/Edit Yacht form (AddYachtScreen.js). This is Section 8 — added after the existing sections (Basics, Dimensions, Registration, Engine, Accommodation, Photo, Notes). Do NOT change any existing sections. Only add the new section described here.

CONCEPT

The equipment section works as follows:

- User sees a categorized list of equipment items
 - Each item has a toggle (off by default)
 - When toggled ON → the item expands to show detail fields (brand, model, serial, specific fields)
 - User fills only what's relevant — everything is optional
 - For items that can have multiple units (generators, tenders, jet skis) → user can add multiple entries
-

SUPABASE SCHEMA

```
create table if not exists yacht_equipment (  
  id uuid primary key default gen_random_uuid(),  
  yacht_id uuid references yachts(id) on delete cascade,  
  user_id text not null,  
  category text not null,  
  equipment_type text not null,  
  quantity integer default 1,  
  brand text,  
  model text,
```

```

    serial_number text,
    year_installed integer,
    -- Numeric specifics
    power_kw numeric,          -- generators: kW
    power_hp numeric,          -- engines/tenders: HP
    hours numeric,             -- engine/generator hours
    capacity_liters numeric,    -- watermaker: liters/hour
    capacity_persons integer,   -- life rafts: persons
    panels_count integer,       -- solar panels: count
    total_watts numeric,        -- solar panels: total watts
    zones_count integer,        -- AC: number of zones
    -- Free text specifics
    type_detail text,          -- stabilizer type, rigging type etc
    notes text,
    created_at timestamptz default now()
);

create index yacht_equipment_yacht_id_idx on yacht_equipment(yacht_id);

```

UI STRUCTURE

Section header (collapsible like other sections):

```

EQUIPMENT & SYSTEMS
▼ (expanded by default when editing)

```

Inside: categorized groups, each group collapsible.

EQUIPMENT CATEGORIES & ITEMS

GROUP 1: POWER & ELECTRICAL

GENERATORS (multiple allowed)

 Generators
 [+ Add generator] ← button, can add up to 6

Each generator entry:

Generator #1  Remove]

Brand: [_____]

Model: [_____]

Power: [_____] kW

Current hours: [_____] hrs

Year installed: [_____]

Serial number: [_____]

Notes: [_____]

Generator #2 [🗑 Remove]

[same fields]

Single-unit items (toggle ON/OFF):

Each shows brand + model + notes when ON.

Toggle label	Extra fields when ON
Inverter / Battery charger	Brand, Model, Power (kW)
Solar panels	Brand, Panel count, Total watts
Wind generator	Brand, Model, Power (W)
Bow thruster	Brand, Type (electric/hydraulic)
Stern thruster	Brand, Type (electric/hydraulic)
Stabilizers	Brand, Model, Type: [Gyroscope] [Fins] [Interceptors] [Magnus]
Tender crane / lift	Brand, Capacity (kg)
Electric windlass	Brand, Model

GROUP 2: WATER SYSTEMS

Toggle label	Extra fields when ON
Watermaker / Desalinator	Brand, Model, Output (L/hour), Hours
Water heater	Brand, Capacity (L)
Water treatment system	Brand, Model

Freshwater pump system	Brand, Model
------------------------	--------------

GROUP 3: NAVIGATION & COMMUNICATION

Toggle label	Extra fields when ON
Radar	Brand, Model
AIS transponder	Brand, Model, MMSI number
Chartplotter / MFD	Brand, Model, Screen size (inches)
Autopilot	Brand, Model
Depth sounder / Fishfinder	Brand, Model
VHF radio	Brand, Model, DSC: [Yes][No]
SSB / HF radio	Brand, Model
Satellite phone	Brand, Model
Starlink	Plan type: [Roam][Maritime][Regional]
VSAT satellite internet	Brand, Provider, Speed (Mbps)
Iridium satellite	Device type

GROUP 4: SAFETY EQUIPMENT

Toggle label	Extra fields when ON
Life rafts	Brand, Count, Total capacity (persons), Last service date
EPIRB	Brand, Model, Expiry date
MOB system (man overboard)	Brand, Model, Type: [AIS][DSC][PLB]
Fire suppression — engine room	Type: [CO2][FM200][Novec][Sprinklers]
Fire suppression — galley	Type: [CO2][Wet chemical]
Defibrillator (AED)	Brand, Model, Last service date

Medical oxygen	Cylinder count, Last refill date
Thermal / night vision camera	Brand, Model

GROUP 5: COMFORT & CLIMATE

Toggle label	Extra fields when ON
Air conditioning — central	Brand, Total capacity (BTU/kW), Zones count
Air conditioning — split units	Count, Total capacity (kW)
Heating system	Type: [Diesel][Electric][Heat pump], Brand
Underfloor heating	Areas covered
Satellite TV	Brand, Dish type
AV system / Home theatre	Brand, Model
Smart home / automation	Brand, System name
Underwater lighting	Color: [White][Blue][RGB], Count

GROUP 6: WATER TOYS & TENDERS

TENDERS (multiple allowed, up to 4)

 Tenders

[+ Add tender]

Each tender entry:

Tender #1 [ Remove]

Brand:

Model:

Length: m

Engine brand:

Engine power: HP

Engine hours: hrs

Year: [____]

JET SKIS / PWC (multiple allowed, up to 4)

 Jet Skis / PWC
[+ Add jet ski]

Each entry:

Brand: [____] Model: [____] Year: [____] Hours: [____] hrs

Other toys (toggle + quantity):

Toggle label	Extra fields
SUP boards	Count: [-][+]
Kayaks	Count: [-][+], Type: [Single][Double]
Diving compressor	Brand, Model, Hours
Diving equipment	Sets count, Last service
Water skis / Wakeboard	Count
Kitesurf equipment	Count, Brand
Windsurfer	Count
Underwater scooter	Brand, Count
Inflatable water slide	Brand, Length (m)
Water trampoline	Brand, Size
Electric surfboard / Foil	Brand, Model, Count
Fishing equipment	Type: [Trolling][Bottom][Fly]
Snorkeling sets	Count

GROUP 7: DECK & RIGGING

--	--

Toggle label	Extra fields when ON
Hydraulic passerelle / gangway	Brand, Length (m)
Swim platform lift	Brand, Capacity (kg)
Electric anchor windlass	Brand, Chain length (m)
Second anchor system	Type, Chain length (m)
Cockpit enclosure / bimini	Type: [Hard][Soft]
Underwater camera / drone	Brand, Model

SAILING SPECIFIC (show only if yacht_type = Sailing or Catamaran):

Toggle label	Extra fields when ON
Rig type	Type: [Sloop][Ketch][Cutter][Cat][Schooner]
Electric winches	Brand, Count
Self-tacking jib	Brand
Code zero / Asymmetric spinnaker	Brand
Bowsprit	Length (m)
Furling systems	Count, Brand
Mast brand & material	Brand, Material: [Aluminum][Carbon]

COMPONENT STRUCTURE

EquipmentSection.js (main component)

```
// Renders all 7 groups
// Each group is collapsible
// State: equipmentData = { generators: [], tenders: [], jetSkis: [], items: {} }
// items = { bow_thruster: { enabled: true, brand: 'Side-Power', model: 'SE30', .
```

EquipmentToggleRow.js (single item)

```
// Props: itemKey, label, icon, fields[], value, onChange
// Renders: toggle row, expands to show fields when enabled
// Collapsed: just the label + toggle
// Expanded: label + toggle + detail fields below
```

EquipmentMultiRow.js (generators, tenders, jet skis)

```
// Props: type, items[], onAdd, onRemove, onChange
// Renders: list of entries + "Add" button
// Each entry has all its fields + remove button
```

COMPLETENESS SCORE UPDATE

Add equipment completeness to the existing yacht profile score:

- Has at least 1 generator listed: +3 points
 - Has safety equipment filled (life raft + EPIRB): +5 points
 - Has navigation equipment filled: +3 points
 - Has tenders listed: +2 points
-

SAVE LOGIC

On save yacht:

1. Save main yacht record to `yachts` table (existing)
 2. Delete existing equipment records for this `yacht_id`
 3. Insert new equipment records to `yacht_equipment` table
 4. One row per equipment item that is enabled (toggle = ON)
 5. Multiple rows for generators/tenders/jetskis (one per unit)
-

DISPLAY IN YACHT DETAIL (Overview tab)

Add Equipment section to yacht overview:

EQUIPMENT & SYSTEMS

	Generators	2 units (1,200 hrs / 800 hrs)
	Watermaker	Spectra Newport 400 · 68 L/hr
	Air conditioning	Central · 4 zones
	Tenders	2 units
	Jet Skis	1 unit
	Starlink	Maritime
	Life rafts	2 × 8 persons

Only show items that are enabled. Show count for multi-unit items. Show key spec inline (hours for generators, output for watermaker, etc.)

PRIORITY BUILD ORDER

1. Supabase table `yacht_equipment`
 2. `EquipmentToggleRow.js` component
 3. `EquipmentMultiRow.js` component (for generators, tenders, jet skis)
 4. `EquipmentSection.js` — groups 1-7
 5. Save logic in `AddYachtScreen`
 6. Load existing equipment on edit
 7. Display in `YachtDetailScreen` overview tab
 8. Update completeness score
-

IMPORTANT NOTES

- All fields optional — user fills only what they have
- Default: all toggles OFF (nothing selected)
- Sailing-specific group (Group 7 rigging section): only show if `yacht_type` is Sailing or Catamaran
- Generators, tenders, jet skis: stored as separate rows in `yacht_equipment`, with `equipment_type` = 'generator' | 'tender' | 'jetski' and quantity handled by multiple rows

- Hours fields (generators, engines, tenders): numeric only, no commas
 - Do NOT show equipment in Charter Planner or Valuation — equipment data is for Yacht Profile and future Survey module only
 - Equipment data will be used in future Digital Passport (QR code profile) — ensure yacht_id is always stored
-
